	transferred electronically to your account at another financial institution every month rather than credited to these accounts. If you choose to transfer your interest to another account, all CDs in the ladder will have the interest transferred.
	<ul> <li>Daily balance computation method: We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in each account each day.</li> </ul>
	> Accrual of interest on noncash deposits: Interest begins to accrue on the business day you deposit noncash
	<ul> <li>items (for example, checks).</li> <li>Transaction limitations: You may not make any deposits (after the opening deposit) into your account before maturity. You may make withdrawals of principal from your account before maturity only if we agree at the time you request the withdrawal. Principal withdrawn before maturity is included in the amount</li> </ul>
	subject to early withdrawal penalty. Other than payment of interest as described in the crediting frequency paragraph, you cannot withdraw interest from your account before maturity.
	Early withdrawal penalty: A penalty may be imposed for withdrawals before maturity. For Certificates of Deposit with terms of 6 or 12 months, we may impose a penalty equal to six months interest on the amount withdrawn. For Certificates of Deposit with terms greater than 12 months, we may impose a penalty equal to 12 months interest on the amount withdrawn. Note: Once a CD in the ladder has automatically renewed interest on the amount withdrawn due to be another with terms of 12 months interest on the amount withdrawn.
	into a longer term CD per the ladder product, the penalties noted above for that new term will apply. In certain circumstances such as the death or incompetence of an owner of this account, the law permits, and in some cases requires, the waiver of the early withdrawal penalty.
	Automatically renewable time account: Each of the accounts in the ladder will automatically renew at maturity, and will renew into the longest term CD in your ladder. You may prevent renewal if you withdraw the funds in the account at maturity (or within the grace period mentioned below) or we receive written
	notice from you within that grace period. We can prevent renewal if we mail notice to you at least 30 calendar days before maturity. If either you or we prevent renewal, interest will not accrue after final maturity. If the maturity date falls on a non-business day as defined in this brochure, the CD may be
	withdrawn beginning on the next business day following the maturity. The new interest rate will be determined using Principal's rates for the corresponding term as listed on Principal's Internet web site, based on the renewal term and (if applicable) current balance. You will have 10 calendar days after maturity
	to withdraw the funds without a penalty. (This 10 day period is the grace period.) If the 10th day of the grace period falls on a non-business day as defined in this brochure, the last day of the grace period then reverts to the previous business day. Interest will not be paid on funds withdrawn from the Certificate for
	the period from the final maturity date to the withdrawal date.
	NOTE: All terms, conditions and interest rates of your CD account will remain in effect until your next maturity
	date. Upon maturity, your certificate will renew to a term subject to Axos Bank™'s current terms, conditions and interest rates.
	Rate Information: The interest rate and annual percentage yield will be disclosed to you on a separate document. The rates we offer may vary based on the amount of the initial deposit. You will be paid the disclosed rate until the first maturity or renewal date. The annual percentage yield assumes interest will remain on deposit until maturity. A withdrawal will reduce earnings.
	> Term and Maturity Rate: The actual term you choose, and the corresponding maturity date, will be disclosed on a separate document.
	> Compounding frequency: Interest will be compounded every month.
Principal Non- Qualified CDs	Crediting frequency: As interest is credited to your account each month, it becomes part of your principal balance. You may choose to have interest paid to a Principal Checking, Savings, or Money Market account or transferred electronically to your account at another financial institution every month rather than credited to this account.
	<ul> <li>Daily balance computation method: We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day.</li> </ul>
	<ul> <li>Accrual of interest on noncash deposits: Interest begins to accrue on the business day you deposit noncash items (for example, checks).</li> </ul>
	Transaction limitations: You may not make any deposits (after the opening deposit) into your account before maturity. You may make withdrawals of principal from your account before maturity only if we agree at the time you request the withdrawal. Principal withdrawn before maturity is included in the amount subject to early withdrawal penalty. Other than payment of interest as described in the crediting frequency
	paragraph, you cannot withdraw interest from your account before maturity.
	Early withdrawal penalty: A penalty may be imposed for withdrawals before maturity. For Certificates of Deposit with terms of three months, we may impose a penalty equal to three months interest on the
